

B I R E S P

INDICATIONS AND PROPERTIES

The product is indicated in a diet that supports the health of the respiratory system.

Iceland moss has a strong component that helps mucolytic and decongestant activity and that protects the respiratory mucosa.

Grindelia contains resins, saponins and essential oils that support the **anti-inflammatory, bronco-spasmodic and expectorant activity** of the respiratory system.

Ivy helps the bronchial anti-inflammatory activity, the decrease of congestion and the mucolytic action of the respiratory tract.
