

PLUSIL

MAIN INGREDIENTS

- **Milk thistle extract (*Silybum marianum*)**

Milk thistle contains a flavonoid called silymarin constituted by three flavonolignan (silybin, silydianin and silychristin). Silymarin supports the hepatoprotective, antioxidant and regenerating activities of the liver. It is a powerful help for the protection of biological systems against the oxidative stress. It is been suggested that silymarin may be used for supporting the anti-inflammatory and detoxifying properties of the liver.

- **Burdock's root (*Arctium iappa*)**

Burdock (*Arctium iappa*) is known for supporting purifying and laxative properties of the organism thanks to its stimulatory activity on the liver. Burdock also helps antifungal and antibacterial properties of the organism.

- **Artichoke extract (*Cynara scolymus*)**

The leaves of Artichoke contain a compound known as cynarine, which improves the function of the bladder, liver and gall bladder. For centuries artichoke has been used to improve liver function, also as a digestive and diuretic.

USE: Powder: 100 gr every 100 kg of feed;
Liquid: 50 ml of the product per 100 liters of water

PACKS: Powder: 15 kg bag; Liquid: 5-liter and 20-liter tanks
